Title:	Swine flu alert in Jaipur after doctor's death, Rajasthan			
Action By CSU, IDSP -NCDC	Information communicated to DSU- Jaipur, SSU- Rajasthan			

He recently visited southern States

After the death of a retired government doctor due to swine flu here, the Rajasthan government's Medical and Health Department has geared up to check the spread of the disease and issued alert in the State capital.

Flu-like symptoms

All government dispensaries, satellite hospitals and other government health centres were asked to pay special attention to patients with swine flu-like symptoms. V.D. Bohra, who retired from Sawai Man Singh Government Hospital here, had visited Hyderabad and some other cities in the southern States, where he felt unwell. His condition deteriorated when he came back to Jaipur last week.

Dr. Bohra was admitted to a private hospital, which sent his swab samples to Ahmedabad for swine flu test. After he tested positive, he suffered multiple organ failure and was declared dead on Wednesday.

Medical and Health Minister Kali Charan Saraf has instructed doctors and para-medical staff to remain alert to the symptoms of swine flu among the patients of cough, cold, catarrh and high fever and immediately start their treatment.

According to the official sources, the Minister asked the Chief Medical and Health Officers in all districts to ensure collection of samples, availability of medicines, referral to specialists and prompt services of intensive care units and isolation wards
