Title:	Teacher dies days after vaccination in district Kadapa, Andhra Pradesh			
Action By CSU, IDSP -NCDC	Information communicated to DSU-Kadapa, SSU-Andhra Pradesh			

Days after being administered the Covid-19 vaccine, a 58-year-old anganwadi teacher died after developing fever in Kadapa's Pulivendula town. The deceased was identified as T Narayanamma, a resident of Ahobilapuram area.

According to family members, Narayanamma was received the vaccine around 15 days back at a local government hospital. A day after that, she developed fever and admitted to private hospital where doctors ascertained the cause as typhoid. Sources said she was then shifted to RIMS hospital in Kadapa and eventually sent home despite her fever not reducing on Thursday night.

Within an hour of her return, she succumbed. Her family alleged 'vaccine failure' behind her death. CITU workers staged a protest, demanding Rs 50 lakh compensation and a government job to one of her family members under compassionate grounds. This comes after the government had announced a Rs 50 lakh ex-gratia to a village volunteer who had succumbed to complications following her vaccination.

Save Water- Save Life, Save a tree- Don't print unless it's really necessary!
