Title:	Viral fever grips Hamirpur, Una districts in Himachal Pradesh			
Action By CSU, IDSP -NCDC	Information communicated to DSU- Hamirpur & Una, SSU- Himachal Pradesh			

Cases of viral fever are on the rise in the twin districts of Hamirpur and Una with doctors blaming it on the significant difference between day and night temperatures in the state.

A health department spokesperson said that people, especially children, are visiting hospitals with complaints of fever, vomiting, diarrhoea, cough, cold, sore throat, body pain, headache and body stiffness.

Around 50 people are visiting the regional hospital Una daily with these complaints, the spokesperson said.

Senior Medical Superintendent at the regional hospital in Una Dr Raman Sharma said a change in the weather in the last few days has led to a rise in cases of viral fever. "People must wear warm clothes in the morning and evening and keep children warm," he said.
