<b>Title:</b>	<b>Schoolchildren fall ill after vaccination in Begusarai district, Bihar</b>			
Action By CSU, IDSP -NCDC	Information communicated to DSU-Begusarai, SSU-Bihar			

More than 20 students of Government Middle School at Godna under Bachhwara block of Begusarai district fell ill on Monday allegedly after they were administered measles-rubella vaccines. Sources said majority of the affected children were girls. Sources said it all started after a few vaccinated children started complaining of nausea. The situation turned alarming after some of the children started vomiting. Six of the affected girls complained of blood coming out while vomiting. Most of the affected children belonged to Class VIII of the school.

When their conditions started worsening, the children were rushed to the primary health centre at Bachhwara from where at least six of them were referred to Begusarai Sadar hospital. PHC Bachhwara sources said all the admitted children were out of danger. However, they would not be immediately discharged as a precautionary measure.

Those admitted to the Sadar hospital were also reported to be safe. District immunization officer Hareram Kumar said such cases are reported in some situations but the exact reason would be known only after proper medical examination.
