

**INSTRUCTIONS REGARDING CONNECTIVITY
BETWEEN UHF & COMPUTER**

1/4' Mono Jack (6.35mm) Cable

**Those who are having above cable they need to buy
3.5mm connector only shown below:**

And if they doesn't have above Mono Jack 6.35mm cable then you can purchase this cable which is shown below:

Note: In this way we can bypass the amplifier and we can connect UHF directly with Computer Microphone input jack
